PARTNER WITH THE CLUB

SPONSOR THE BUILD.

River Valley Robotics is a student club at River Valley High School. We design, build, and drive small combat robots. Your support pays for the parts, tools, and entry fees that keep the build moving.

WHO WE ARE

A SMALL CLUB. A REAL BUILD.

The club started in fall 2025 and built its first robots in 2026. Students handle the CAD, the 3D printing, the wiring, and the driving. You don't need experience to start.

Sponsors make the season possible. Your support covers the parts, tools, fees, and travel that turn an after-school club into a real build.
